

Community **SAFETY REMINDER**

As construction activities expand into new areas, we ask everyone travelling through the project zone to please follow all posted signage, respect traffic control measures, and use extra caution around workers and equipment.

We also encourage motorists to be patient and respectful of fellow drivers, pedestrians, adjacent residents, and local business owners who continue to navigate the impacts of construction. A little courtesy goes a long way in helping keep everyone safe and supporting the community during this important project.

*Thank you to residents, businesses, and visitors
for your ongoing patience, understanding, and support
as we work together to build a safer,
more accessible, and more connected
Main Street for Palmerston.*
